

Dear *Shubhada*,

*Congratulations on becoming a teacher for our Diana Cooper School of White Light. We are delighted to welcome you. Together, we can create the new Golden Age on the planet, and your contribution will play an important part in its success. So, we thank you for joining us in this vital work.*

*To be a Spiritual Teacher on Earth is a special role that calls for dedication and great integrity. Remember that you are never alone. The angelic realms are with you, and Mother Mary, Lord Maitreya and Archangel Metatron overlight the School and all its teachers as we spread the light of wisdom, truth, knowledge, inspiration, love and joy out to the world.*

*The Diana Cooper School of White Light is part of the Great White Brotherhood on Earth and has an important mission to fulfil. When you become a member of the School you become part of a worldwide team of light workers in service to our planet.*

*We welcome and value your contribution in whatever form it takes, whether guiding and supporting friends or family, or running workshops and teacher training programmes. However, you share your unique gifts, know that it will always make a valuable contribution to the shift in consciousness now taking place.*

*We will continue to offer you support and encouragement to help you to spread the light and to stand in your power and magnificence. Remember, we are there for you as we take the ascension path together.*

*We do hope that you will take an active role in the organisation and running of the School. All are welcome to participate! And we look forward to meeting you at the next annual Diana Cooper School of White Light Reunion so that we can congratulate you personally.*

*With love and blessings*

*Founder*
